

Pet's Name Ozzie Hay

King or Queen? King

Most Regal Habit

Ozzie has amazing alertness for people in need. I have severe migraines that occasionally cause blackouts. Ozzie is immediately at my side and tries to wake me. He won't leave me until I'm alert and then he will steady my walking on the stairs. He has never been trained to be a Service Dog, but he indeed has the instincts of one. He's very sensitive to anyone who he thinks is in need, whether they need it or not. And usually he's right! His happy personality draws people to him. He loves to greet people with a big smile and gives them a hug.

Least Regal Habit

He is TOO INQUISITIVE and he always thinks everything belongs to him. He loves his games, but they usually get him into trouble. His favorite game is "hide & seek". He has been known to hide eye glasses, hearing aids and the fob to our car. His other naughty game is called "catch me if you can". He loves to steal paper and be chased for it. He has gotten in trouble for eating paper, including the Book of Genesis. I told him, "that's not how you digest The Word". He has been forgiven and has been trying very hard to stay out of trouble. In spite of his playful sneaky trickery, he hasn't met anyone who doesn't love him.

Royal Decree

Every dog should have playtime with their friends, and opportunities to meet new friends. I would provide a well groomed & safe outside area for dogs during warm seasons, and inside areas with equipment for fun & challenges during cold seasons. It will be so fun! Treats & water provided for us dogs. Owners bring their own bottle.
