

Pet's Name: Rosie

King or Queen? Queen

Most Regal Habit

Rosie is a LOVE all the way from her crooked underbite to her curled tail. She enjoys her regal snuggles from any willing human, but especially her own family. She's as sweet as pie and loves everyone she meets!

Least Regal Habit

Unfortunately, Rosie likes to dig in our raspberry bushes. She stashes away her bones and other treats she finds. We presume she's stashing them for a famine because food was scarce in the first few years of her life up Mission Creek.

Royal Decree

"Be kind, spread love." Rosie arrived at the Wenatchee Valley Humane Society as a young, pregnant, pup. We adopted her as soon as she was ready and she has folded right into our family. She enjoys balls (but not playing fetch), the water (but never swims), playing dress up (as long as no hats are involved), and affection in any form.
