

Pet's Name Shorty

King or Queen? King

Most Regal Habit

While Shorty possesses a royal bearing, he is also bright, forward-looking, alert and interested in others. Shorty always smiles.

He is never peevish, aggressive or mean-spirited and can be relied upon to offer friendship and a wild, frisky romp to any willing child or canine.

Least Regal Habit

Well, let me see.

Shorty does use his ample-snout to push his food (all of it) out of his royal bowl into a fan of kibble all over the floor. He will do this several time a day. Not cool.

This habit certainly lacks 'regality' but still he persists so he must have a reason, known only to himself.

There is that!

Royal Decree

The Royal Decree of HRH Shorty.

First, of course, world peace.

Second, he proclaims the equality of all dogs and would lead his Apple Blossom Subjects into a renewed appreciation of life and spring and community!
